

HUNDREDS ARE DEAD

Hundreds of Others Reported Injured.

EFFECTS OF A WESTERN CYCLONE

Three Iowa Towns, Pomeroy, Jolley and Manson, Are Reported Destroyed, but the Full Particulars Are Unobtainable, as All Wire Connection Has Been Destroyed—Several Other Places Report Terrible Hurricanes and Great Destruction Done.

DES MOINES, July 7.—It is reported that a cyclone, doing great damage, has passed through the towns of Pomeroy, Jolley and Manson. No particulars can at present be obtained, as all telegraph wires connected with those places are down.

The operator at Taroa, Ia., telegraphs that 100 are dead at Pomeroy and 200 injured.

A special train with all the physicians of the city has just left Fort Dodge for Pomeroy, 25 miles west on the Illinois Central railway, the scene of the cyclone.

Reports From Alta.

ALTA, Ia., July 7.—A terrific tornado, accompanied by thunder and hail, struck four miles south of this place. A number of persons were killed. Reports indicate that the storm extended from near Aurelia to Newell, but meager reports are as yet at hand.

Sixteen Reported Killed.

CHEROKEE, Ia., July 7.—Reports have reached here to the effect that a terrible cyclone has passed through the southeastern part of this county. The cyclone's course was eastward, and cut a path from one to three miles in width and about 12 miles long. All crops in its path are completely ruined. A large amount of stock and farm animals were killed. It is also reported that 16 persons were killed and many others injured. Definite details, however, are not obtainable at this hour.

Five Counties Visited.

SIoux CITY, Ia., July 7.—A cyclone, accompanied by heavy rain and hail, passed over Cherokee, Buena Vista, Ida, Sac and Pocahontas counties east of here. Wires are down and little can be learned. Mrs. Allen Warburton of Quimby was killed. Near Cherokee a Mrs. Moleynax was killed. The storm swept the country nearly eastward, destroying crops and demolishing the buildings in its path. It is rumored several people were killed.

Minnesota Also Visited.

LAKEFIELD, Minn., July 7.—A cyclone struck here, doing considerable damage to buildings. T. S. Y. Hyde warehouse was blown down and the steeple of the Methodist church taken off. The dwelling of Mr. Thompson, five miles west of here, was carried into the air and totally wrecked, several members of the family being seriously injured. The dwelling of Andrew K. Ahara, three miles south, was totally wrecked. Mrs. Ahara and one child being fatally injured.

Several lives are reported to have been lost in the country near here, but nothing definite has been learned.

LOSS OF LIFE IN CHINA.

Thousands of People Drowned in the Floods—Other Casualties.

SAN FRANCISCO, July 7.—The steamer Belgio from Hong Kong and Yokohama brought the following advices:

One thousand people have been drowned near Shaking and Woole by the overflowing of a branch of the Weiling river. A vast area in Nankan Fu has been devastated by floods, and nearly 10,000 people have been drowned or killed by falling houses.

About the middle of May officials of the Taiping customhouse sent away a considerable quantity of money, collected as duty, to Canton. The money was entrusted to deputies, who embarked in a small boat and proceeded on their way, escorted by three small river gunboats. Some distance down the river they were suddenly attacked by several pirate boats which rushed out of a small creek unexpectedly and set upon the boat containing the treasure. The soldiers on board the gunboats fought bravely, the struggle lasting for several hours, but as there were nearly 500 pirates, both on boats and on the banks of the river, the soldiers were eventually worsted and put to flight, leaving a large number of dead and wounded behind them, and the pirates succeeded in carrying off the booty, to the extent of about \$20,000.

The Peninsular and Oriental steamship Khiva, while on her way from Bombay to Mecca, carrying 979 pilgrims and a crew of 80, took fire and

was lost. The steamer was beached. In attempting to leave the burning ship a number of pilgrims rushed to one of the boats, which capsized and 20 of their number were drowned. The rest of the passengers and crew reached the shore in safety.

RIOTING IN PARIS.

Fierce Fighting Going on and Several People Are Killed.

PARIS, July 7.—The closing of the Labor Exchange has caused intense excitement among the workmen. Gangs of rowdies gathered yesterday evening in the Rue Du Chateau D'Eu round the Labor Exchange in the nearby side streets.

By 9 o'clock the rioters had become numerous and belligerent. They upset and partly smashed five trams and broke many windows. The police eventually were able to hold them in check, but not to disperse them. In the fights between the students and the police, several rowdies and two policemen were injured. Few students took part in the riots.

A mob took possession of the Boulevard du Temple at 10:30 o'clock, and began breaking windows. The police used their revolvers, and several rioters were shot.

The labor leader, Allemane, warned his hearers against resorting to open fighting with the government. He says more than 25,000 troops had been brought from the provinces to Paris within the last five days. Their fight would be futile, as the country was not yet ripe for the revolution.

THE PRESIDENT LAID UP.

He Is Confined to His Room by an Attack of Rheumatism.

BUZZARD'S BAY, Mass., July 7.—A call made at Gray Gables Thursday revealed the fact that the president is confined to his room. Secretary Lamont says Mr. Cleveland has an attack of rheumatism in his foot and knee, a complaint of which he has suffered for many years and which is no doubt aggravated at this time by the hard work and severe strain on his strength which the president has undergone since the 4th of March.

The trouble has been hanging about him for some weeks, but has now so much increased in severity that he will be compelled to take absolute rest, in order that he may be at his post of duty at the special meeting of congress.

It will be necessary for the president to deny himself to visitors for the present, and his friends will, of course, observe his request that he be permitted to get all possible benefit from his vacation. A similar attack confined him to the house here about a fortnight this time last year. Surgeon General Bryant is in attendance upon Mr. Cleveland.

SHERIFF SHOT.

The Leper Question Growing Serious on the Sandwich Islands.

SAN FRANCISCO, July 7.—Advices from Honolulu say that while attempting to remove 28 lepers from Kalalau valley, Kanui, Sheriff Stoltz, acting under orders from the board of health, was shot and killed by the lepers. His body was brought to Honolulu. The board of health determined to remove the lepers to the settlements of Molokai, for fear they would spread the disease beyond the limits of the valley. Stoltz was accompanied by only two policemen. The two native policemen were not attacked.

The lepers have sworn vengeance against only white men who come to remove them. The board has determined now to remove all the lepers at all hazards, and will land officers on the beach by steamer, and, by guarding the one trail leading into the valley, will force the lepers to surrender, or will shoot them down from the cliffs which hem the valley in.

HOMESTEAD RIOTS.

Anniversary of the Battle With the Pinkerton Men.

HOMESTEAD, Pa., July 7.—Yesterday was the anniversary of the battle with the Pinkerton men. There was a rumor that an attempt would be made to burn the Carnegie mill and that regiments in Pittsburgh were under arms. The mill was in full operation all day, the workers being largely made up from Homestead strikers.

A picnic at the Ninth Street grove and a few speeches in the evening; flowers scattered upon the graves of those who fell in the fight—these simple ceremonies were all which Homestead allowed itself in commemoration.

At the picnic a fund was started to be used in the erection of a monument in memory of the workmen killed in the memorable riot.

Royal Wedding.

LONDON, July 7.—The marriage of the Duke of York (Prince George of Wales) and Princess Victoria May of Teck, an event to which all England had been looking forward with deep interest, took place at 12:30 o'clock in chapel royal, St. James palace. The wedding was a brilliant function, and was attended by a large gathering of the members of the British royal family, continental sovereigns or their representatives, and many members of the highest nobility.

Will Consolidate.

WASHINGTON, July 7.—It is understood that owing to the material decrease of business at local land offices throughout the west several land districts will probably be consolidated. No change, however, is anticipated before the president and the secretary of the interior return from their summer vacations. In consequence of these contemplated consolidations, very few if any appointments of land officers will be made at present.

AT THE WORLD'S FAIR

Some Prominent People Attend the Great Show.

MR. CARLISLE AMONG THEM.

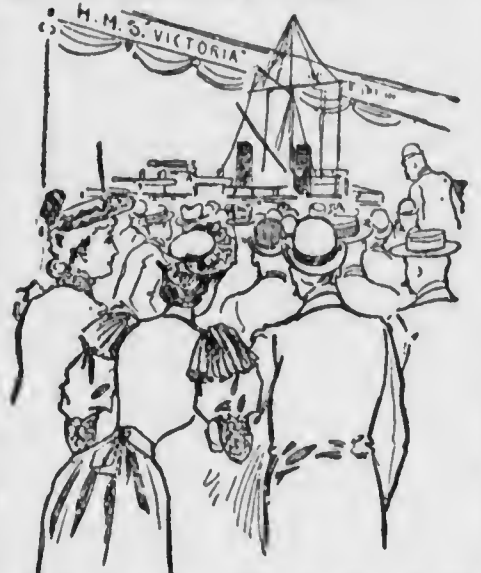

He Will Remain a Week Taking in the Sights—The Governors of Pennsylvania and Utah, Vice President Stevenson and Whitelaw Reid Also Among the Sight-seers.

CHICAGO, July 7.—The secretary of the treasury and Mrs. John G. Carlisle, their youngest son, Miss Berry of Kentucky and Colonel O. O. Staley, were on the grounds early in charge of the secretary's son, W. K. Carlisle, who is attorney for the exhibition. The party came out on the revenue cutter Andy Johnson, that class of government vessels always being at the beck and call of the treasury chief. He called on President Palmer in an informal way. The secretary intends to remain here seeing the fair for one week.

Another distinguished visitor was the governor of Utah, Caleb W. West, who came to the city from Washington with Secretary Carlisle. With the governor were Judge Marshall and Dr. Allen Fowler of Salt Lake City.

Governor Pattison of Pennsylvania and Secretary of State William F. Harris, chairman of the Democratic national committee, were also visitors at the fair.

Vice President Adlai Stevenson and Whitelaw Reid were sight-seeing, but they did not meet. This is not strange, as the park is roomy, and they did not know of each other's presence.

CROWD AROUND THE MODEL OF THE LOST BATTLESHIP VICTORIA IN TRANSPORTATION BUILDING.

PUT TO ROUT.

Two Victories Reported Over the Arab Slave Dealers.

BRUSSELS, July 7.—Advices received here from the Congo Free State report two victories over the Arab slave traders. The Arabs recently attacked the forces of the state stationed at Stanley Falls, but were repulsed with heavy loss. The troops pursued the Arabs for some distance. The latter fled in such disorder that they carried little with them but their guns. One hundred and twenty barrels of gunpowder and a quantity of other munitions of war fell into the hands of the soldiers.

The expedition of the Belgian Anti-Slavery society also reports an engagement with slave traders, in which the latter were put to rout.

M. Bernart, the prime minister, read the news of the Belgian victories in the chamber of deputies, and it was received with great enthusiasm.

Section Men Still Out.

MOORE'S HILL, Ind., July 7.—There is no prospect of an amicable settlement of the strike inaugurated by section men on the Ohio and Mississippi railroad. The striking laborers have not returned to work, and the president of the road has not filled the places with tramps, as he told the section men's committee he could easily do. It is probable that a compromise may be effected before many days have passed. At the writing of this dispatch all work on the tracks of the east end division is at a dead standstill. An offer to increase the day's wages from \$1.05 to \$1.15 has been refused by the leaders of the strikers. They demand \$1.25.

Laboring Men Demanding Wages Due.

BLOOMINGTON, Ind., July 7.—There is much excitement over the refusal of laboring men to complete the waterworks. A few days ago the contractors were unable to get money, and, failing to get any adjustment of their accounts, they quit work. Others were placed in the trenches, but were persuaded to give up their places as fast as they commenced work, and the company is now unable to proceed. The men are demanding \$6,000 due them, and their is much feeling and excitement.

Was Tired of Life.

MARTIN'S FERRY, O., July 7.—Edward Carlin in a fit of despondency committed suicide by drowning in the Ohio river. He left a note saying: "I hope God will take care of my wife and children. I have had too much trouble and am tired of life." He was 82 years old and was a son of the late Captain Carlin of the famous Carlin's battery.

COLUMBUS, O., July 7.—George W. Luce, a well known business man of Columbus, who formerly ran a jewelry store in the Neal House block, was arrested for purchasing stolen jewelry from Athens. He turned over some of the property. It caused a great sensation, as he was a member of the Broad street Methodist Episcopal church.

STRIKE OVER.

The Labor Trouble at Indianapolis All Settled.

INDIANAPOLIS, July 7.—The attempt of the teamsters' and shovelers' union to excite a general strike among the laboring unions has so far met with failure. The men on Illinois and West streets, who went out through sympathy, returned to work soon afterward, and the work is progressing satisfactorily.

A number of tracklayers were at work on Illinois street, having decided not to go out. The Western Paving company has about 200 men at work. They are receiving \$1.75 a day and the bosses say they are satisfied.

At a meeting of the union an effort was made to call all the members of the organization in the city out. The meeting lasted until 12 o'clock, but no definite conclusions were reached.

The Acme Paving and Construction company put its men to work on the Southwest street improvement. A large crowd stood around and yelled "Scabs." None of the agitators were present, and no attempt was made to interfere with the men. A squad of police was present, but their services were not needed. Fifty-five men took up the shovels, and all the teams were at work.

A MARRIAGE ON WHEELS.

Courage Failed This Couple and They Flew From the Guests.

MOORE'S HILL, Ind., July 7.—Cupid has cut another of his curious capers. The story of his latest escapade comes from the western part of Jefferson county, Ind. James A. Noe is a prosperous young farmer there. Like all other young farmers in southeastern Indiana, his thoughts turned to matrimony, and he wooed a young woman of the neighborhood. Not only wooed her, but won her to such an extent that she said "Yes" for Noe. The couple fixed their wedding day, and at the appointed time they drove to Madison to procure a license. By the time they had secured their permit from County Clerk Tevis and had driven back to the home of the bride-to-be in Saluda township, the house was thronged with guests. Courage failed the pair, and quietly calling the squire from the parlor, they were married in their buggy out in the road, then drove hurriedly off through the darkness, leaving their large assemblage of guests in a peculiar state of mind.

VAN LOON DID NOT HANG.

Governor McKinley Granted Him a Respite of Four Weeks.

COLUMBUS, O., July 7.—Frank Van Loon, the Columbus Grove bank robber and murderer, did not hang. Governor McKinley respite him until Aug. 4. The grounds of the respite were solely on the claims of Van Loon's friends that they could produce new testimony. Van Loon begged for a conference with the governor who, being unable to go to the annex, sent Harry Miner, a member of the pardon board.

The condemned man broke down twice and cried like a baby while talking to Mr. Miner. He begged for more time, and the governor respite him after Mr. Miner had conveyed the prisoner's message to him. Van Loon was very grateful over the decision, and ate a good supper, the first meal in several days.

Fished With a Club.

CRAWFORDSVILLE, Ind., July 7.—George Seaggs, the well known groceryman, had a time with a mammoth catfish near the "Shades of Death." He was camping with a party at the "Shades," and started down the river to fish for bass. He observed an immense catfish swimming from a deep hole into a comparatively shallow one, and quickly blocked the channel with logs from a drift heap. The pool where the fish was swimming was bound by shallows, and Seaggs, wading in, killed it with a sharpened club. The fish weighed 45 pounds, and it is the largest taken from the Rock river for several years.

Lights Go Out.

HILLSBORO, O., July 7.—The Gas and Electric company, a private concern, has petitioned for a dissolution of partnership, pending which it asked the appointment of a receiver to take charge of the business. Judge Newby appointed J. M. Hughey as receiver. The company has been running at a loss for some time, but was carried by the now closed Citizens' bank. The liabilities of the company are about \$36,000, assets \$20,000 to \$25,000.

Fishing Schooner Seized.

GLOUCESTER, Mass., July 7.—A dispatch states that the fishing schooner Horace B. Parker of Southport was seized at Port Royal, Anticosti, N. F. An extra premium was demanded for a license, the alleged reason being the depreciation of silver certificates. It was paid under protest. The seizure is looked upon here as an outrage, and the board of trade will probably apply to Washington authorities for redress.

Malignant Diphtheria.

ELWOOD, Ind., July 7.—Malignant diphtheria has broken out again, two deaths being reported. The sanitary condition of the city is in a deplorable state, all efforts to induce the people to clean up having been of little avail.

Threatening Another Round.

ELWOOD, Ind., July 7.—Agel Long, the young man who shot at Otto Ballard 10 times, has been released under \$500 bonds. He threatens to complete his work if Ballard does not cease paying attentions to his sweetheart.

Passenger Train Derailed.

SHELBYVILLE, Ind., July 7.—The world's fair fast train on Big Four was derailed at Fairland. Several persons were injured, but none killed.

A DAY IN HAWAII.

Twenty-Four Hours Later News From Honolulu.

ARRIVAL OF ANOTHER STEAMER

The Trial of Walker, Sinclair and Cryek, the Conspirators Against the Provisional Government, Has Begun—Testimony of Several Witnesses.

SAN FRANCISCO, July 7.—The steamer Mariposa arrived from Sydney via Honolulu Thursday. The Mariposa left Honolulu one day later than the Belgie, which arrived Wednesday. Testimony for the prosecution in the preliminary examination of Walker, Cryek and Sinclair, arrested on the charge of conspiracy, was continued on the afternoon of June 28. Thomas Wright testified that he knew Walker, who advised him not to join the new rifle company, giving as a reason for his advice that there might be trouble and he did not want any of his friends to get hurt.

Simon Von Topazi, a member of the regular company said that during a conversation with Walker, the latter informed him that everything would be changed as soon as the provisional government was overthrown. Walker led to advise the members of the company to lay down their arms and not to fight in case there was any trouble. He wanted the witness to get the names of those who would consent to turn traitors, so he could give the list to the queen. In return this witness was to get a position in the customhouse as soon as the old order of things was restored. Walker said that he had 300 men and if the provisional government attempted to interfere with the queen, it would find that the queen had enough men to protect her. He also said that the royalists had good backing, among whom was Claus Spreckels.

A. S. Prescott testified that he belonged to the company of which Von Topazi was a member. He saw Walker and Sinclair on June 21. Von Topazi was present at the time. Walker, in explaining his plans, said that Spreckels and Campbell were to assist with large sums of money. Spreckels with a million and Campbell with half that amount. Witness said that Walker informed him that the assault on the government was to be made if the decision of the United States government was against them.

After the examination of several other witnesses, the prosecution rested its case.

The fact that the list of conspirators is in possession of the provisional government has leaked out, and there are many uneasy royalists in town. It is the hope of the government that they will have such a strong case against Cryek, Walker and Sinclair, that they, who are believed to be only the tools of the more prominent men, seeing that conviction is certain, will turn state's evidence in the hope of getting off themselves.

MADE AWAY WITH THE FUNDS.

Two Arrests Follow the Failure of a Colorado Bank.

DENVER, July 7.—Elmer E. Williams, secretary of the state bureau of information, has been arrested charged with having \$31,000 of the funds of the Chaffee County bank, which recently failed at Salida. The bank gave up business under very peculiar circumstances. Immediately after the closing of its doors an investigation was made, and it was found that the bank's liabilities amounted to about \$61,000 and its immediate available assets about \$800.

William E. Robertson, the cashier of the bank, was immediately placed under arrest. Williams, who was formerly cashier of the failed bank, was in Salida previous to the failure. He is a strong personal friend of Robertson, and the two are charged with having made away with the funds of the institution.

BANK FAILURES.

Six of Them Reported to the Comptroller of the Currency.

WASHINGTON, July 7.—Comptroller Eckels states that the information given out in his office that he had directed bank examiner Wilson to take charge of the First National bank of Albuquerque, N. M., was a mistake. The name of the failed bank was at the Albuquerque (N. M.) National bank.

Five other national banks have failed and been reported to Comptroller Eckels. They were: The American National bank of Pueblo, Colo.; the Central National bank of Pueblo, Colo.; the Puget Sound National bank of Everett, Wash.; the National bank of Ashland, Neb.; and the First National bank of Winston, N. C.

Comptroller Eckels has directed bank examiners to assume charge of all the above named banks.

PENSION FRAUDS.

"The examination into the pension frauds at Norfolk, Va., has already shown pensions obtained in no less than 223 cases in which there was not a shadow of legal or equitable right," says the Hunterdon (N. J.) Democrat. "These will be dropped from the pension roll and the Norfolk attorney will be tried in a Federal court under thirteen indictments for violation of the pension laws. Most of his dupes were densely ignorant negroes, who implicitly believed in his statement that everybody was to have a pension; and the extent of the frauds already committed in this single case may be judged from the figures of the pension examiners, which show that in 167 of the fraudulent cases above noted the Government would have paid out nearly \$350,000. The investigation now being instituted in Iowa shows the same scheme of rascality, except that the parties implicated were white men, who profited by the frauds which they thoroughly understood and assisted in. When the pension department gets through with its investigations of the cases to which its attention is called the government will make a saving of many millions of dollars."

Now that the Sherman Silver law has brought so much financial trouble on the country the Republicans are busy trying to evade responsibility for the measure. The act was a compromise, they say, and was passed in order to prevent a free coinage bill from being adopted. They didn't talk that way shortly after the passage of the law. On September 10, 1890, Indiana Republicans adopted the following:

We cordially commend the action of Republicans in Congress on the subject of silver coinage. Ex-President Cleveland, by messages to Congress, strongly opposed all legislation favorable to silver coinage, and the law recently enacted was passed in spite of persistent Democratic opposition. Under its beneficent influences silver has rapidly approached the gold standard of value, farm products are advancing in price, and commerce is feeling the impulse of increased prosperity. It will add more than \$50,000,000 annually of sound currency to the amount in circulation among the people, and is a long yet practical step toward free coinage.

This was before the evil effect of the measure was felt. Now, they are saying it was adopted to head off free coinage. The Public Ledger should revise its editorials on this subject.

Scared But Not Badly Hurt.

The Second National Bank, of Ashland, which was forced to close its doors several days ago, will again soon be ready for business. The institution has been declared all right. The management of the Sabina, Ohio, and the Jeffersonville, Ohio, banks, both of which were forced to suspend a few days ago, owing to an unwarranted scare over the Haydock failure in St. Louis, Mo., have also announced that these institutions will resume.

KENTUCKY CROPS.

Weekly Report of the Weather Bureau as to Wheat, Oats, Corn, Tobacco and Fruits.

The weekly report of the Kentucky Department of the U. S. Weather Bureau was a day late this week, probably due to the National holiday on the 4th. The report says that generally favorable weather conditions have prevailed during the past week. The temperature and sunshine were slightly in excess of the normal, and the amount of rainfall upon the whole deficient though through the central counties of the State, extending from the Tennessee line northward to Ohio and embracing the Bluegrass counties, very copious local showers fell and resulted in an excessive amount in these sections. The western half of the State, and the extreme eastern sections, received but scattering showers. Local wind and rain storms occurred in the central counties on June 30 and July 2. They were especially severe in Fayette and Carroll counties, and caused much damage to corn, oats, and timothy hay.

The wheat harvest is about completed in all except the extreme Northeastern sections. The general tone of reports received indicate an average yield of good quality, except in a few counties, where it was injured by smut and rust. The violent wind storms of the second, damaged some fields which had not been cut. Owing to prevailing low prices, farmers are not generally disposed to sell. Oats are ripening very fast and will soon be ready to cut. The crop promises to be above the average, though it has suffered somewhat from high winds in the same districts where wheat was damaged from this cause. Some barley has been threshed and the yield is reported to be tolerably good. The hay crop is nearly cut and it is the best in several years. Hemp is small but looks well.

The reports received in regard to corn are generally very favorable. The crop is now in good condition, and clear of weeds and grasses. It is, however, from ten days to two weeks late, but there is no present cause to fear that this drawback will affect its general character. It is small, but healthy and vigorous. Some of that planted on the uplands needs rain.

Early tobacco is all that could be desired, but the late planted portion needs rain, especially in the western counties, where the comparatively dry weather has prevented the plants taking good root. Though it is too early to hazard a prediction, it may be said that the present prospect for this crop is generally very promising.

Irish potatoes promise the best yield in several years.

The outlook for late fruits is not encouraging. Raspberries and blackberries are very scarce in the northern counties and in some sections the crop is a total failure. Apples and peaches are still falling off the trees, though there appears to be a fair prospect for a good crop of the latter.

The Citizens Coal Company was allowed \$5 for use of boat, and William Davis was allowed \$10 and Dodson & Frazer \$8.72 for work on the lower grade.

A communication from the Maysville Fuel Company in reference to a claim of the city for repairing streets was read, and the matter was referred to the Internal Improvement Committee and City Prosecutor for adjustment.

The question of exempting Hayswood Seminary, the Convent and the Misses Young's school from taxation for 1892 was brought up. Statements were made by A. M. J. Cochran, Dr. Hays and others. A motion to postpone the matter until an opinion could be obtained from the Attorney General was lost and a motion to exempt the three pieces of property was then adopted.

The question of extending the water mains to West Third street was continued in the hands of the Committee.

The application of the Maysville Real Estate Company to change the plat of the property recently purchased in the Sixth ward, and to change the name of Chester Avenue to Kentucky street was reported favorably. An ordinance making the change was then passed, under a suspension of the rules.

The following permits were granted: Eli Brady; to build a frame house in Sixth ward.

Jeff Carmack; to erect a frame residence in West End.

Andrew Hunter; to erect a two-story frame residence on Forest avenue.

Albert N. Huff; to erect a two-story residence on the south side of East Fifth street.

Samuel Monday; to build an addition to his house in Sixth ward.
The coffee house license of Bromley & Greenlee was transferred to Oliver Greenlee.

Thomas Guilfoyle & Co. were granted coffee house license, after a warm discussion of their application. They propose to do business on Front street, west of Market, in the old "Arcade" and it was claimed a majority of the people living and doing business on the street had not signed the application.

The question of re-imbursement James Hasson and Charles Bauder for the judgment and costs of the suit of M. O. Dora against them for cutting down a shade tree, was brought up by Mr. Wadsworth. He was satisfied that Council had ordered the tree removed, although there was no record of it, and he thought the city ought to pay the judgment and Mr. Hasson's and Mr. Bauder's costs, amounting to something over \$100. Statements were made by President Cox, Mr. Martin, Mayor Pearce and others. Mr. Pearce and Captain Martin stated they heard Captain Hellin say in his lifetime that he did not order Mr. Hasson to remove the tree. A yea and nay vote was demanded on a motion to re-imburse Messrs. Hasson and Bauder and it was lost, the vote being a tie—8 to 8.

Mr. Haulman said teamsters continued to drive over the sidewalk on Second street extension. It had recently been repaired. Wagons and draymen paid no attention to the warnings to keep off. A

motion to place a post-and-rail guard along the sidewalk was adopted.

A brick gutter was ordered put down on south side of Fourth street between Market and Limestone, and the property holders along the route were ordered to put down pavements and curbing.

Complaints were made that parties were dumping filth and garbage along Second street extension, but no action was taken in the matter.

A motion of Mr. Wadsworth that the city assume the rent of a building for the colored school in Sixth ward for next session amounting to \$35, and also pay a balance of \$10 on last session was adopted.

At this point Mr. Blatterman read a statement just received from the Attorney General in regard to the assessment of Hayswood Seminary, the convent and Misses Young's school. Mr. Hendrick's opinion is that this property is exempt from taxation.

Mayor Pearce was granted leave of absence for a month or so.

The Internal Improvement Committee was authorized to make some improvement to Gray alley.

Mr. Cox stated that a deed had been executed to proper party for station house property, and read a receipt showing that the check and notes in payment for the property had been turned over to the City Treasurer. He also stated that the cooper shop building in Sixth ward had been sold to Rufus Dryden for \$300. The notes were turned over to the Treasurer.

Some other matters of minor importance were disposed of and Council then adjourned.

MAYOR PEARCE will leave next Monday on a two-months' trip through the West. He will take in the World's Fair, but will spend most of the time at Waukesha and Colorado Springs. Squire Grant will be acting-Mayor during Mr. Pearce's absence.

Why pay from 15 to 20 per cent. more for watches when you can buy a fine gold watch at P. J. Murphy's, the jeweler, and save that difference? No better goods made, and I guarantee to save you the difference stated above. Now is the time to buy. Successor to Hopper & Murphy.

MR. THOMAS MULCAHY, of Warner, Tenn., in renewing his subscription for the WEEKLY BULLETIN, says: "It has been fifteen years since I have been in Maysville, but I always find something in your paper that interests me." Mr. Mulcahy has a position at present with the Southern Iron Company.

SMALL FAVORS

Thankfully Received—Reduction of 3 Per Cent. in Assessment of Town Lots Secured.

The committee that went before the State Board of Equalization yesterday to secure a more favorable action in regard to the assessment of Mason County was not very successful.

The Board decided that the increase of 17 per cent. in the assessment of land and personally should stand, but granted a reduction of 3 per cent. in the raise on town lots, leaving the increase in the assessment of town lots 12 per cent.

The State Board is taking 80 per cent. of the cash value of the lands, as shown by the sales and transfers of last year, as a basis for the assessment, instead of 70 per cent. as is required by the act creating the Board.

The committee from this county got off better than the one from Madison County. The Board had contemplated raising the Madison County assessment 4 per cent. and the gentlemen who went from Madison to resist that raise made some figures for the Board which showed that the increase to bring the assessment up to 80 per cent. should be 7 per cent. instead of 4 and the Board promptly raised it to 7 per cent.

It is the opinion of some of the lawyers, says the Winchester Democrat, that the act creating the State Board of Equalization was repealed by the adoption of the new Revenue and Taxation bill, which does not refer to the Board of Equalization in any way, and that the gentlemen now composing the Board have no authority to change the work of the County Supervisors. That question will doubtless be tested in the courts as the Board has increased the assessment in some counties as much as 30 per cent.

The saving to Mason County by the reduction of 3 per cent. in the raise on town lots will amount to nearly \$1,000.

HENRY CRAIG and Sarah Stewart, colored, were married Thursday at the County Clerk's office, by Judge Phister.

SPRINGDALE.

The annual re-union of the old settlers of Lewis, Mason and Fleming counties was held at Ruggles camp grounds July 4th. The following programme was successfully carried out: At 11 a. m. the meeting was called to order by A. D. Tolle, Acting President. Divine blessing invoked by Rev. Stratton, after which W. D. Hixon read a very interesting paper relating to early Kentucky history, referring especially to Mason, Fleming and Lewis counties. At 12:15 the assembled multitude adjourned to enjoy the feast of good things that was in more than lavish abundance on the grounds. Ample justice having been done these, the St. John's Juvenile Drum Corps of Maysville beat the reveille, and the interested portion of the assembly enjoyed a treat in the form of an elegant oration by Adna A. Wadsworth. "The Battle Cry of Freedom" was then rendered by the drum corps, which was followed by a short speech by J. R. Peoples, followed by Miss Pearl Thomas with a recitation of rare merit. G. W. Adair then addressed the audience, especially his old neighbors, in his own unique style. "Yankee Doodle" was then given by the band, followed by a cornet solo by J. H. Richardson, then a song charmingly rendered by Misses Mattie and Mary King. The old board of officers were unanimously re-elected, and a motion carried to the effect that the 4th of July be the time and Ruggles camp ground the place for the next annual re-union. A motion also carried requesting the papers of Lewis, Mason and Fleming counties to publish the proceedings of the meeting. The only reported death of the members of the association was that of Samuel B. Lyous. The meeting then adjourned till 4th of July, 1894.

After dinner came "a feast of reason and flow of soul."

The largest crowd that has ever attended the "O. S. R." was present on the 4th.

Many old faces present at previous re-unions were absent, whether living or dead the Secretaries were unable to find out.

One or two of the speakers were sure that the people could now thank God and rejoice, for the Kentucky Legislature was a thing of the past.

One of the speakers was of the opinion that every good patriotic citizen was either a Republican or a Democrat. Right you are, Bro. Peoples.

The drum corps is a dandy lot of bright boys, and the way their country cousins enjoyed Yankee Doodle and other good old airs was not slow.

The several Sunday school delegations highly enjoyed the swings and other modes of innocent amusement in the cool shade of the beautiful grounds.

Many of the old settlers present were delighted with the occasion and the day, and recited many reminiscences of "4th of July barbecues" of the long time ago.

The speech of A. A. Wadsworth was a splendid effort, and was listened to with delight and interest from beginning to finish. It should be published in all the papers of the three counties.

The camp meeting reminiscence as given by W. D. Hixon was highly enjoyed. A skeptical friend at our side remarked that it would be a good thing if the Lord would revisit the same sections and stir up the descendants of the "old settlers."

Patriotism ran riot all day except in one particular, the Nation's flag was conspicuous by its absence. Only two six by ten-inch specimens displayed on the stand. Shame; let us cover the buildings and fill this beautiful forest full of bunting next 4th of July.
